Description

Burnley, Champions Again! tells the story of the incredible promotion season that Vincent Kompany inspired and organised at Burnley FC. At the end of season 2021/22 the club found themselves relegated and managerless. With players wanting to leave, the club needing to sell them and fans worried the owners might decide to desert a sinking ship, the future looked bleak. But the worries were unfounded. Vincent Kompany was brought in as manager. He spoke of promotion being a three- or four-year project. As existing players left in droves, their replacements were drafted in from the continent – some bought, others joining on loan. But doubts lingered. The newcomers were unknowns, and some of the departing players were big names. The change in playing style was immediate – a transformation – and Burnley fans were wide-eyed with awe at the stunning possession-based football. The start was slow, but as the wins and points stacked up Burnley clinched an inconceivable top-flight return at the end of a magical season.
