#### Description

*From Triumph to Tragedy* is the glorious, uplifting but ultimately tragic story of Chapecoense, the small-town Brazilian football club that made worldwide news following their meteoric rise from non-league to continental sensation. Yet the headlines that will be remembered centre on the air disaster en route to what should have been their greatest ever match. Less than ten years after the local mayor had intervened to save the club from liquidation, Associação Chapecoense de Futebol had become champions of the Santa Catarina State Championship. At the summit of the Brazilian national league structure, they also qualified sensationally for the final of the Copa Sul Americana. The team of rejects and journeymen became heroes not just in their own city, but also to the whole nation. But the final was never to take place, as tragedy struck to render all those triumphant nights insignificant. Could the club now stage one more incredible recovery to allow Era Chape to continue, rather than to accept their fate as the tragic team beloved in fans' memories?
