

Title information

Winner Stays On

England with The FA Cup for a Compass

By R M Clark

Key features

- Novel and original premise of a travel book with a route determined by FA Cup fixtures providing a basic framework through which to explore complex ideas
- Left-field perspectives on some of England's biggest football clubs
- Previously untold stories of lower-league sides
- Blends elements of travel writing with football culture and barstool sociology
- Explores the changing dynamics between clubs and their communities based on their size and socioeconomic status
- Examines the changing role of the FA Cup
- Publicity campaign planned including radio, newspapers, websites, podcasts and magazines

Winner Stays On journeys into the heart of English football using FA Cup fixtures to plan the route. This unique adventure takes us across the entire spectrum of the English game, from Tuffley Rovers to Burton Albion, Luton Town to Manchester City, revealing the people and places that make football tick. With original research and rich, thought-provoking prose, the book blends elements of travel writing with football culture and barstool sociology. It's also funny. A frank account of the state of modern football as well as a heartfelt celebration, the book uncovers where the game is going wrong. Amateur footballers are afforded the same curiosity as Premier League stars; faltering industrial towns are treated with the same respect as upmarket villages and prosperous, world-leading cities. Over 14 matches and 14 locations, *Winner Stays On* brings us a fascinating first-hand take on modern England and the sport its inhabitants turn to for escapism.
